

Dave Palmer Photography

Introduction:

Hello, my name is Dave Palmer and I have been involved with youth baseball in Cloverdale Minor Baseball since 2007. I spent 8 years coaching and held various positions on the Cloverdale Minor Baseball Executive and Board over those years. When my son started playing Peewee AA I was stepped back from coaching and became the team manager and photographer for the teams he played for over the next 6 years which included Peewee AA, Bantam AAA, North Delta Blue Jays (photographer only) and then College Prep for 2 years.

I have been the team photographer for the College Prep team for the past 4 years and baseball photography is one of my passions. This year I will be doing photos for all 6 Cloverdale Ranger High Performance teams.

As my son does not play anymore I've started turning my attention towards offering photography sessions for Teams/Families looking for photos of their kids playing baseball.

What am I offering?

I will attend one of your teams games during the Cloverdale Boulanger Tournament being held from June 29th through to July 3rd.

I will take photos of all the players on the team and will do my best to get them in action photos but obviously I can't control if they are involved in a play or not. I will get each player batting and if they reach base I will get them sliding etc. I will take photos of all the pitchers used in the game as well. I try to get a lot of Candid photos as you can see in the examples on my website and the Cloverdale Rangers High Performance Instagram account. If requested I can do a Team photo but note portraits are not my specialty.

The team will receive with a Link to my photos through my Adobe Lightroom Software. All photos can be downloaded and used without copyright by the team/families.

The cost for a team photo session is \$300.00 (approximately \$25/Player)

Please note that should the situation arise that both teams playing have hired me, my focus will be on one team primarily with the other team getting some photos as they are presented during that shoot. The team that is not the focus team during that game will have my full attention for a different game during the tournament. All photos of a team regardless of which game will be made available in your shared link.
